

## Mozilla Firefox Instructions for Adding the ORC ECA CA Signing Certificate

1) Launch Mozilla Firefox and go to the ORC ECA website. Click **ECA Repository** and then click **ECA Root Certificate**.

2) At the next prompt about Untrusted Certificate, please select Accept Permanently option and click **OK**.

3) At the **Downloading Certificate** prompt, check all three boxes and click **OK**.

4) After clicking **OK**, you will encounter a blank page. Please click the X at the top right of the tab to close it.

5) If you click **ECA Repository** and then click **ECA Root Certificate** after adding the ECA Root Certificate into Firefox, you will see the message (**This certificate is already installed as a certificate authority**). Click **OK** and then click the X at the top right of the tab to close the blank page.
